

ARA III

Alcohol Replacement Additive for Fountain Solutions

Product Usage

Alcohol Replacement Additive for Fountain Solutions

Features and Benefits

- special surfactants and alcohol replacement additives
allow to print without or a minimum of IPA:
 - less environmental pollution and
 - considerable cost savings
 - sharper dots – higher print quality
 - less water – faster drying
- allows faster start-ups of the plates: less paper waste
- variable dosage possible depending on the circumstances

Packaging

10/20 liter cans

Directions

ARA III is an alcohol-replacement additive and is added manually to the ready-to-use Fountain Solution in the Fountain tank. The recommended dosage is 1 - 3 Vol.-%. With the addition, it is possible to significantly reduce the dosage of IPA.

Technical Specifications

- form: liquid
- Density: 1,05 g/cm³
- Color: transparant
- Odour: glycol-like
- Water miscible: yes
- pH value: -
- labelling: -

Storage and Shelf Life

storage: not under 6°C, not above 40°C
Shelf Life: 12 months
keep container tightly closed
keep away from direct sun light
