

Anilox Cleaner Ultra

Intensive cleaner for anilox rollers

Product Usage

Intensive cleaner to remove dried varnish and ink from anilox rollers

Features and Benefits

- Intensive cleaning power - also for dried residues
- Higher viscosity allows easier handling
- Gives back the anilox roller its original transfer capability

Packaging

10x 1 Liter bottles

Directions

Use in combination with DVD 100.

Remove major contaminations with DVD 100, then apply Anilox Cleaner Ultra with a sponge or rag onto roller and let penetrate for 15 - 20 minutes. Finally, clean again with DVD 100 or water to remove all residues and dry the roller.
