

DV-Intense

highly concentrated cleaner for water-based varnishes and flexo inks

Product Usage

Intensive cleaner for water-based varnishes and flexo inks

Features and Benefits

- very high solvency power, removes dried residues of water-based varnishes and flexo inks
- special surfactants dissolve residues thoroughly
- also suitable for cleaning the varnish circulation system
- low odor - better working conditions
- can also be used for UV inks and UV varnishes (not dried)
- dilution with water possible

Packaging

10 L cans

Directions

Apply DV-Intense with sponge, rag or brush and let penetrate for a few minutes. Afterwards remove residues with water.

For application in the varnish circulation systems add DV-Intense to the cleaning water (concentration depending on contamination) and let run through for some minutes. Afterwards repeat again with water to remove all residues.

Technical Specifications

- Density: 0,965 g/cm³
- Flash Point: not applicable
- Color: colorless
- pH-value: not applicable
- Odor: mild
- Evaporation: slow
- water-miscible: yes
- Classification: GHS07

Storage and Shelf Life

Store in a cool and dry place

Expire time: 12 months
