## Fountain Solution Concentrate for Sheetfed Presses

---

### Product Usage

Fountain Solution Concentrate - alcohol reducing - for Sheetfed Offset Presses

---

### Directions

Add 2 - 4% depending on the water hardness for to reach a pH level of 4,8 - 5,3

---

### Features and Benefits

- Special alcohol reduction additives: allow to reduce the IPA down to 3 - 6%
- very low dosage: 2-3% - cost saving!
- strong and efficient buffer for a good cleaning performance
- suitable for conventional and UV inks
- eliminates or minimizes framing on impression cylinder
- Very stable ink and water balance: safe printing process with a broad window
- Very fast start up of the plate: minimizes waste
- prevents contamination of the fountain circulation

---

### Technical Specifications

- form: liquid
- Density: 1,090 g/cm<sup>3</sup>
- Color: transparant -slightly yellowish/brown
- Odour: mild - characteristic
- pH value: 4,5
- labelling: Xi Irritating

---

### Storage and Shelf Life

Storage: not under 6°C, not above 30°C  
Shelf Life: 12 months  
Keep container tightly closed  
Keep away from direct sun light

---

### Packaging

20 liter cans, 200 liter drums
