

Plate Gum MS-M

Plate Gum for offset plates

Product Usage

Plate Gum for offset plates for use in plate processors

Packaging

10/20 Liter can

Features and Benefits

- good spreading over the plate - efficient protection of the oxide surface
- easy removable from the plate without residues - good ink receptiveness
- good pH buffering with soft acidity - fast roll-up of the plate
- permanent elastic - no peel off from the plate after long storage
- economical usage: can be undiluted and diluted up to 1:1 with water depending on the circumstances

Directions

Gum MS-MS: ready to use in plate processors. Can be diluted up to 1:1 depending on the circumstances

Technical Specifications

- form: liquid
 - Density: 1,048 g/cm³
 - Color: light brown
 - Odour: caramel-like
 - Water miscible: yes
 - pH value: 4,5
 - labelling: NO
-

Storage and Shelf Life

Storage: not under 6°C, not above 40°C

Shelf Life: 12 months

Keep container tightly closed

Keep away from direct sun light
