

PGS 702

Plate Wash Out Solution for modern process-free offset plates

Product Usage

Synthetic wash out solution and gum for the latest generation of process-free offset plates

Packaging

20 Liter can

Features and Benefits

- excellent wash out of the plate through effective surfactants
- conditions and activates the printing plate
- generates a sharp color contrast of image areas
- highly concentrated and strong performance - can be diluted with water
- no "sticking-effect"- easy handling, no finger prints on plate
- improved roll up of the plate during printing process
- considerably higher scratch resistance of the plate

Directions

Ready to use solution for use in plate wash out processors or manual application.

Dose PGS 702 into the tank and replace the carried out solution with an appropriate replenishing rate of ca. 10-20 ml/m².

Dilution with water possible, depending on the circumstances.

Technical Specifications

- form: liquid
- density: 1,01 g/cm³
- color: colorless
- odour: neutral
- pH value: 2,2
- classification: GHS 05

Storage and Shelf Life

Storage: not under 6°C, not above 40°C

Shelf Life: 12 months

Keep container tightly closed

Keep away from direct sun light
